

# Kingfisher KINGFISHER Kingfisher

Proudly Australian made for harsh Australian conditions

- ❄ Fully reverse-cycle, suitable for heating and cooling fully insulated caravans and motorhomes up to 23ft (external) in length.
- ❄ One single, fully self-contained unit.
- ❄ Fully remote control.
- ❄ Dehumidifier setting to help asthma sufferers.

Simple and easy installation – remote control mobile airconditioner

The Aircommand Kingfisher is the air conditioner you have been waiting for. Fully reverse cycle and able to handle up to 36m<sup>3</sup>, or a 23' (external) van.

The Kingfisher is fully remote control, enabling you to control your environment no matter what the conditions. With the electronic display, you can set your own temperature and have it displayed on the LCD screen with the touch of a button.

Sleeping in scorching conditions will no longer be a problem. Just set your temperature in addition to the timer and the Kingfisher will take care of the rest, switching off at what ever time you desire, or if you feel it is too cold or hot, just press the off button from wherever you are in your van.

Humidity can be controlled with the Kingfisher's "Dry Mode" that will dehumidify the air and help prevent asthma and other allergies caused by the build up of mildew or humidity.

Kingfisher from Aircommand.  
Proudly Australian made for harsh Australian conditions.
